

Hamlet & his Latin Jazz Experience

Description & costs of the show

Show Description : The duration of the show is 2 hours and can be divided in two times one hour each, to be decided first together with the organizer.

Band Members : The band consists of 7 musicians + the sound engineer for a total of 8 persons. If the organization is responsible to provide the Service including the engineer, in that case we consider only the 7 members of the band (for comfort and better sound the band prefers to travel with their own personal sound engineer).

Audio and Lighting : The band travels without a sound system and lights which should be borne by the organization. For more information on this see the "Technical Rider" attached.

Costs : The cost of the show is to be agreed with the organization or agency privately.

The price will not include the costs of travel, accommodation with breakfast, dinner on the evening of the concert that should be paid by the organization or agency.

The band has its official headquarters in Klagenfurt, Carinthia, Austria, therefore we consider this as a starting point for calculating the distances.

The price may fall a bit if there are multiple dates near, for example three concerts in the same week, in that case should be considered the costs of overnight with breakfast on the days off which will be borne by the organization or agency.

For contracts and further information contact the representative of the group

Mr. Hamlet Fiorilli
